ReadMe file - User Instructions

The electronic publication on this CD-ROM disk requires Adobe Reader 7.0 (or higher) to view and navigate the publication. The instructions below describe how to start the electronic publication using the Reader software.

How To Start this Electronic Publication

Insert the CD into the CD-ROM drive. The disk should start automatically. If it does not start, then open the contents of the CD via Windows Explorer or My Computer, then open "autorun.exe". In order to do this:

- 1) Open 'My Computer'. From here, right-click on the CD-ROM drive containing the publication.
- 2) Select 'Open' from the menu that appears.
- 3) You should now be viewing the CD's contents. Open (or double-click on) "autorun.exe" The publication should now start.

Windows users will now see a menu. The following options are available on this menu:

- Run Publication: Select this option if you want to open the electronic publication.
- Technical Help: Select this option if you want to learn how to obtain technical support on using this electronic publication.
- Readme: Select this option if you want to view the ReadMe File (i.e. this text file).
- Exit: Select this option if you want to exit the publication.

Browsing the CD

After the electronic publication has started, you can navigate the material using the toolbar, hyperlinks, and buttons provided in the body of the publication.

You can locate desired information on the CD using the table of contents or using the full text Search capability provided by Adobe Reader 7.0. There are many features and shortcuts that you will learn by exploring the CD, reading the Tutorial section and reviewing the Adobe Guide. You can access the Adobe Guide by selecting "Help" from the Adobe Reader command bar.
